

BRINGERSPORTS.COM - QB POOL

QB TD Pool Rules:

- Both passing AND rushing TDs count towards the total TD score for each QB. The player/entry with the most total QB passing AND QB rushing TDs combined will determine this year's winner. (Only regular season games will be used. All post season games will not count!)
- Build your entry by selecting 15 QBs from the list of 56 quarterbacks listed for selection in our NFL QB game.
- Only regular season games will be used.
- Post season games will not count!
- In case of a tie, the tie breaker will remain the same, the TD pass per Interception ratio.
- Payouts will be determined by the number of entries.
- Should any games for any reason be canceled or shortened, we will pay off on the games played and the results will be final!
